*"In my wildest dreams I could never have imagined how much I would enjoy this trip. Magnificent dawns, dramatic red sunsets, picturesque savanna landscape, stood and the top of the world's third largest (and only green) canyon and at the bottom of breathtaking waterfalls.*

*Our guides are experts at reading the environment and locating animals and know everything about their behaviour and social systems. At the end of each full day of this incredible immersion into the wild, and all her incredible creatures, we are welcomed home by a steady parade of curious zebras and kudu that surround the luxurious Needles Lodge.*

*Of course, our happy tired bodies have been nourished with daily asana practice, yoga nidra and pranayama."*

*- Sarcha Thurston*
